# REHABILITATION OF FLOOD AFFECTEES

Immediate rehabilitation of the over 33 Million flood victims, affectees and their families is the need of the hour. Here's how PFM is stepping in to help.

An aerial photograph showing a town in Pakistan completely inundated with floodwater. The water is a murky, brownish-green color. Numerous small, rectangular buildings are visible, some partially submerged. In the background, a larger body of water, possibly a reservoir or a flooded area, is visible under a hazy sky. A green rectangular box is overlaid on the top right of the image, containing the title text.

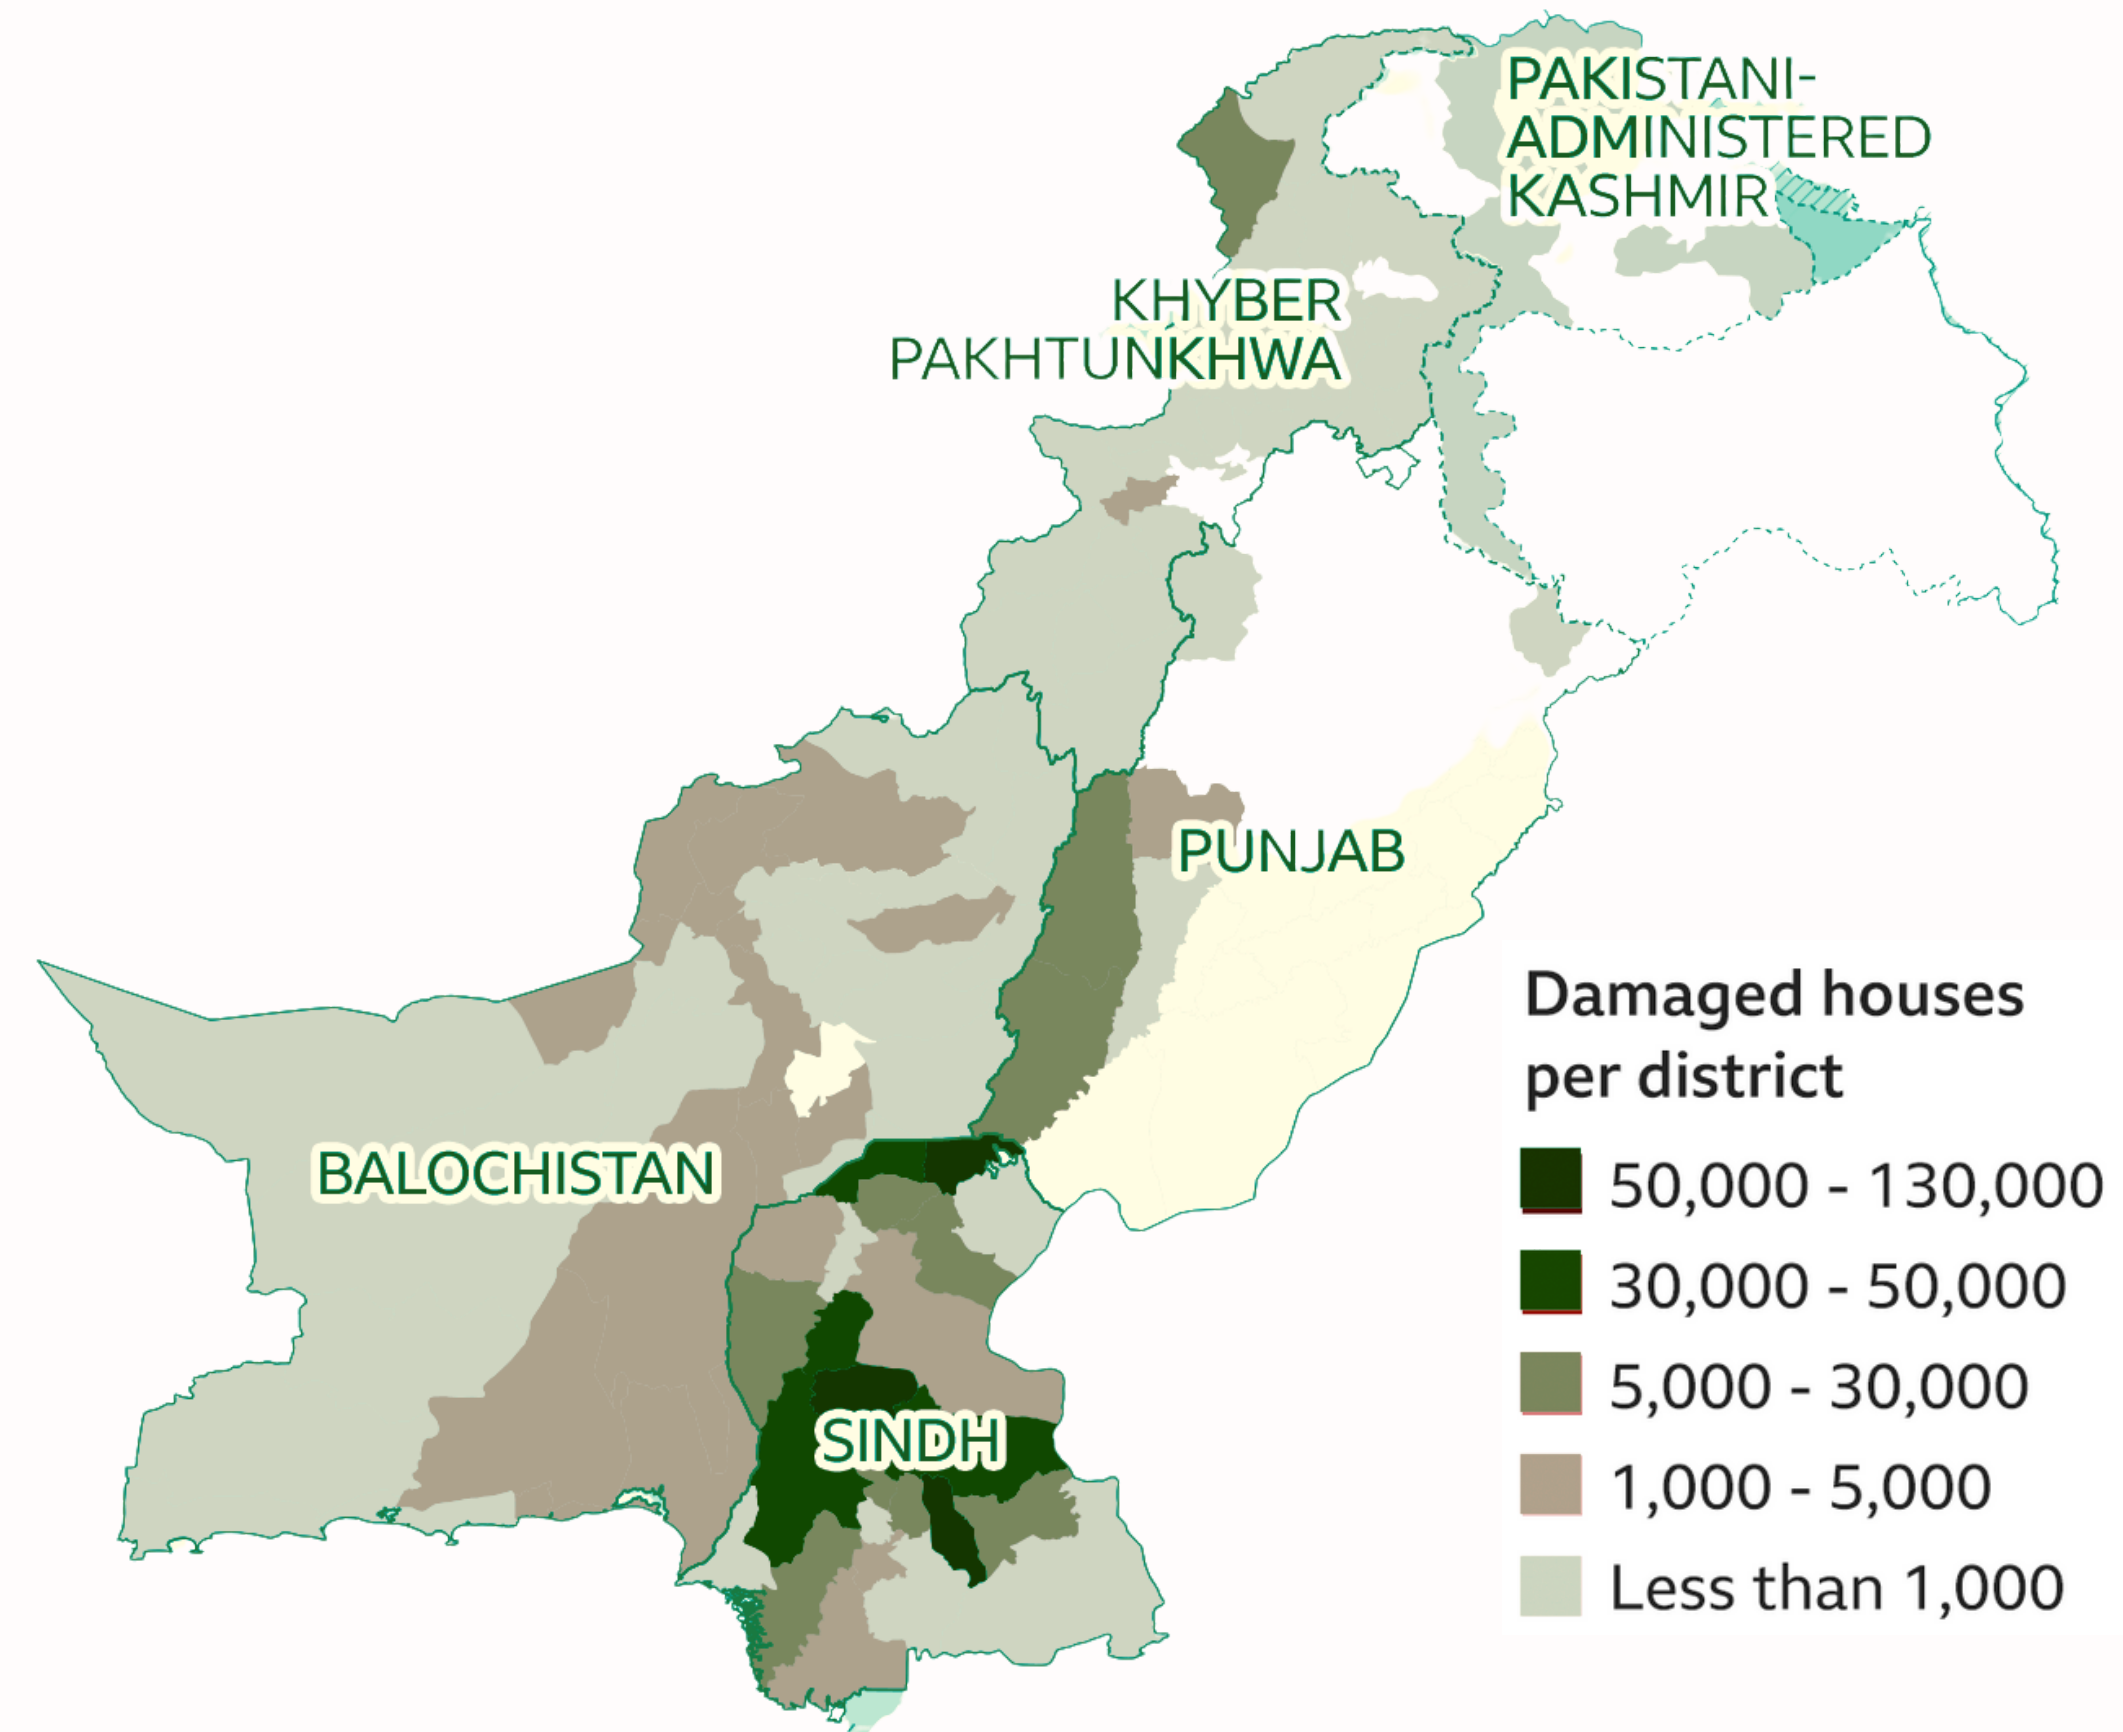

# About the crisis

Pakistan is in the midst of a humanitarian disaster after extreme flooding caused by record-breaking Monsoon rains this summer.

The adverse weather conditions have incurred significant human and livestock casualties and widespread damage to private homes and public infrastructure throughout the country. 66 districts have been officially declared to be 'calamity hit' by the Government of Pakistan – 31 in Balochistan, 23 in Sindh, 9 in Khyber Pakhtunkhwa (KP) and 3 in Punjab.

Those who were lucky enough to survive the flash floods are now struggling as the widespread destruction has robbed them of the basic necessities for survival, such as food or shelter. With lives at stake, extensive rescue and rehabilitation efforts are underway all over Pakistan.

# Flood impact

1 in 7 people have been affected

- 33 Million affectees
- 1300+ lives Lost
- 700K+ livestock lost
- 1 Million houses destroyed
- 2 Million acres of crops affected
- 10+ Million people homeless

# About us

Pakistan Facilities Management is one of the leading facilities management services companies in Pakistan providing highly professional solutions for corporate clients nationwide since its establishment in 2007.

Our success in the Facilities Management industry is attributed to many factors such as our diverse wealth of knowledge, understanding of our customer's needs, attention to detail, and thorough professionalism. Our key strength is our 1,600+ highly trained and professional staff which is deployed in various projects throughout Pakistan.

# Recent work

At PFM, we have an extensive portfolio of relief and rehabilitation work. With a professional workforce of over 1,600 individuals spread all over the country, we have the right network and connections to reach anywhere in the country within a short span of time. We've never let any aid and relief opportunity go by. Here are some of the relief and welfare projects we undertook in partnership with local and international organizations operating in Pakistan.

**“A man’s true wealth is the good he does in this world.”**

- Prophet Muhammad (PBUH)

## Pakistan International Airline

Amidst the peak COVID19 outbreak, PFM provided over 500,000 travel hygiene kits to Pakistan International Airline (PIA). The kits included masks and sanitizers, and were handed over to all of PIA's passengers on local and international flights.

## Afghan Refugees Rehabilitation

PFM, with the help of the South Korean Embassy, arranged for meals and blankets for the helpless Afghan refugees arriving at the Islamabad airport after the US exited Afghanistan. All arrangements were made inhouse, within a 48 hour notice.

## Christian Blind Mission

PFM has worked with the international charity, Christian Blind Mission (CBM). Our team provided over 5000 personal protective kits which included masks, goggles, face shields, protective overalls, gloves etc. to staff in hospitals nationwide.

## True Worth Foundation

During the 2010 Floods, PFM with the help of True Worth Foundation, initiated flood relief and rehabilitation work in Nowshera (KPK) which was the hardest hit. Affectees were provided dry ration, cooking utensils and a free medical clinic facility.

# Need of the hour

The magnitude of damage all over Pakistan is huge, and the situation is getting dire especially with the arrival of winter season soon. Pakistan Facilities Management has partnered up with **Truworth Foundation NGO** and has stepped forward to help in the most affected areas of the country.

We plan on establishing Tent Cities in the most affected areas to not only provide shelter, food and other assistance required immediately but also to cater to all the needs of these tent cities for the next six months. These tent cities will have all the necessary facilities required for survival, particularly in the impending winter season.

# What we can offer

## Dry Food Items

- > Meal Ready to Eat
- > Dry Food
- > Fresh Food and Fruits
- > Dry Milk, Formula Milk for Infants
- > Sugar, Rice, Lentils
- > Salt and Pepper
